STAFF-LEVEL AI AND AUTOMATION ASSESSMENT

Ask the people doing the work.

How we find where your team's time is lost, and win it back.

MarvelUs, Melbourne

marvelus.cc

WHY WE EXIST

Most owners know time is being lost. Few can see where.

The people doing the work know. They rarely get asked.

WHO WE ARE

We ask your staff where their week actually goes, put a dollar figure on every repeat task, then build the digital support and automations that win those hours back.

Based in Melbourne

For teams of 15 to 150

1. **We interview the people doing the work.**
2. **Then we show you, in dollars, where your team's time goes.**

THE ASSESSMENT

Three parts.

PART 1

Staff-level questionnaire

A short survey, then a 15 minute chat with each person.

PART 2

Findings report

Every repeat task in hours and dollars, ranked by value.

PART 3

Findings presentation

We walk your leadership through it, with a working demo on your own paperwork.

Tasks, not jobs.

- Nobody is being assessed
- No names in the report
- About 20 minutes per person

Every answer becomes a dollar figure.

times a week × minutes each × your pay rate = **dollars a year**

Count it, don't guess it. We use your own pay rates.

THE PATH

Four steps.

STEP 1

10-minute chat

Is this a fit?

STEP 2

Paid assessment

Questionnaire, interviews and report.

STEP 3

Findings presentation

Ranked findings and a working demo.

STEP 4

Monthly retainer

We build, train and measure.

Quick wins first. Then we build.

MONTH 1

Audit and quick wins

- Baseline your top workflows
- First quick win live
- 90-day roadmap

MONTHS 2 TO 6

Implementation

- Pilot builds on real work, then roll out
- Team training
- Monthly ROI reporting

What's covered every month.

Builds

New automations and improvements, by tier.

Team training

About 2 sessions a month, on real work.

ROI dashboard

Hours saved, dollars back, what's live.

Care of live systems

Monitoring, prompt refresh, connector fixes.

Governance

AI use policy, AI register, approved tools.

Tool vetting

Approve, trial or reject. Cancel overlaps.

PRICING

Start with the assessment.

A$1,500 to 6,000 by headcount

- Credited against month 1 of the retainer

PRICING: MONTHLY RETAINER

Three tiers, sized to your team.

STARTER

AI Foundations

A$3,000 to 4,500
per month

- **About 12 to 16 hrs** a month
- 1 small build a quarter
- 15 to 40 staff

GROWTH

AI Operations

A$7,500 to 10,000
per month

- **About 36 to 44 hrs** a month
- 1 new build a month
- 40 to 100 staff

FULL

AI Department

A$14,000 to 19,000
per month

- **About 70 to 90 hrs** a month
- 2 builds in parallel
- Monthly on-site day
- 100 to 150 staff, or regulated

AUD ex GST. 3 month minimum, then 30 days notice.

PRICING: THE FINE PRINT

What's not included.

- Software licences
- API and usage costs
- Large custom builds
- Legal advice
- Cyber security advice

PROVING THE VALUE

Measured, not assumed.

Baseline
Before launch

30 days
Re-measure

60 days
Re-measure

90 days
Re-measure

Monthly report

Quarterly review

INCLUDED IN THE RETAINER

Privacy and AI governance, included.

- AI use policy and approved tools
- A register of the AI you use
- Access, data and privacy policy checks

We help you put sensible policies and practices in place. **We are not lawyers, and this is not legal advice.**

NEXT STEP
