Ask the people doing the work.

How we find where your team's time is lost, and win it back.

Most owners know time is being lost. Few can see where.

The people doing the work know. They rarely get asked.

We ask your staff where their week actually goes, put a dollar figure on every repeat task, then build the digital support and automations that win those hours back.

15 - 150 staff

ROUGHLY, SMALL AND MEDIUM BUSINESSES

01

- We interview the people doing the work.

02

Then we show you, in dollars, where your team's time goes.

Three parts.

PART 1

- Staff-level questionnaire

PART 2

Findings report

PART 3

Findings presentation

01 A short survey, then a 15 minute chat with each person.

02 Every repeat task in hours and dollars, ranked by value.

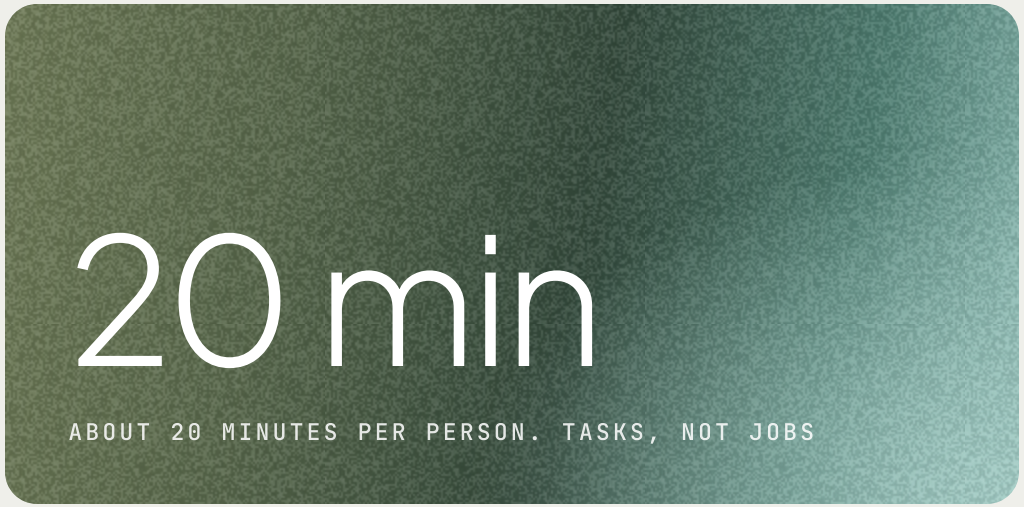

03 We walk your leadership through it, with a working demo on your own paperwork.

Tasks, not jobs.

- Nobody is being assessed

  No names in the report

  About 20 minutes per person

Every answer becomes a dollar figure.

times a week × minutes each × your pay rate = dollars a year

Count it, don't guess it. We use your own pay rates.

Four steps.

STEP 1

10-minute chat

Is this a fit?

STEP 2

Paid assessment

Questionnaire, interviews and report.

STEP 3

Findings presentation

Ranked findings and a working demo.

STEP 4

Monthly retainer

We build, train and measure.

Quick wins first. Then we build.

MONTH 1

Audit and quick wins

- Baseline your top workflows
- First quick win live
- 90-day roadmap

MONTHS 2 - 6

Implementation

- Pilot builds on real work, then roll out
- Team training
- Monthly ROI reporting

What's covered every month.

About 2
TEAM TRAINING SESSIONS A MONTH

Builds	New automations and improvements, by tier.
Team training	About 2 sessions a month, on real work.
ROI dashboard	Hours saved, dollars back, what's live.
Care of live systems	Monitoring, prompt refresh, connector fixes.
Governance	AI use policy, AI register, approved tools.
Tool vetting	Approve, trial or reject. Cancel overlaps.

Start with the assessment.

A$1,500 – 6,000

by headcount

Credited against month 1 of the retainer

Three tiers, sized to your team.

STARTER

AI Foundations

A$3,000 – 4,500

PER MONTH

About 12 – 16 hrs a month

1 small build a quarter

15 - 40 staff

GROWTH

AI Operations

A$7,500 – 10,000

PER MONTH

About 36 – 44 hrs a month

1 new build a month

40 - 100 staff

FULL

AI Department

A$14,000 – 19,000

PER MONTH

About 70 – 90 hrs a month

2 builds in parallel

Monthly on-site day

100 - 150 staff, or regulated

AUD ex GST. 3 month minimum, then 30 days notice.

What's not included.

- Software licences
- API and usage costs
- Large custom builds
- Legal advice
- Cyber security advice

Measured, not assumed.

Baseline
Before launch

30 days
Re-measure

60 days
Re-measure

90 days
Re-measure

- Monthly report
- Quarterly review

30 / 60 / 90
DAYS, RE-MEASURED AGAINST BASELINE

Privacy and AI governance, included.

- AI use policy and approved tools
- A register of the AI you use
- Access, data and privacy policy checks

Not an extra.

GOVERNANCE IS PART OF THE RETAINER

We help you put sensible policies and practices in place. **We are not lawyers, and this is not legal advice.**
